This guide shows you how to replace the LCD panel for a Dell Chromebook 3180.

Written By: Jon

INTRODUCTION

This guide shows you how to replace the LCD panel for a Dell Chromebook 3180.

TOOLS:

- Phillips #0 Screwdriver (1)
- Phillips #00 Screwdriver (1)
- iFixit Opening Tools (1)

PARTS:

- Dell Chromebook 11 3180 LCD Bezel (1)

Step 1 — Prepare CB for LCD Bezel Removal

- Open the chromebook until its completely flat on the table

- Remove both the left and right hinge caps

- Remove a total of 4 screws. One in each corner.
Step 2 — Remove the LCD Bezel

- Use a plastic pry tool or blade and start in the top left corner or first left plastic ridge.

Step 3 — Remove LCD screen

- Remove a total of 4 screws. One in each corner

- Lift up the LCD screen from within the LCD assembly frame.

- On the back of the LCD screen, remove the tape and LCD connector

Step 4 — Install New LCD Screen

- Attach the LCD connector

- re-apply the tape to the LCD connector

- Set the new LCD screen into the LCD assembly frame while matching up the screw ports in each corner

Step 5 — Reinstall LCD Bezel

- When installing the LCD bezel, look for the plastic hinge outlines on each side and match them up with the metal hinges on the chromebook.

- Snap the LCD bezel in place until it is flush with the entire LCD assembly

To reassemble your device, follow these instructions in reverse order.
