

# AEG Öko Lavamat 1571 Shock Absorber Replacement

Replace the two shock absorbers of the washing drum in an AEG Öko Lavamat 1571

Written By: Michael S.

 **TOOLS:**

- [Phillips #3 Screwdriver](#) (1)
- [8mm Allen Socket](#) (1)

 **PARTS:**

- [New Item](#) (2)

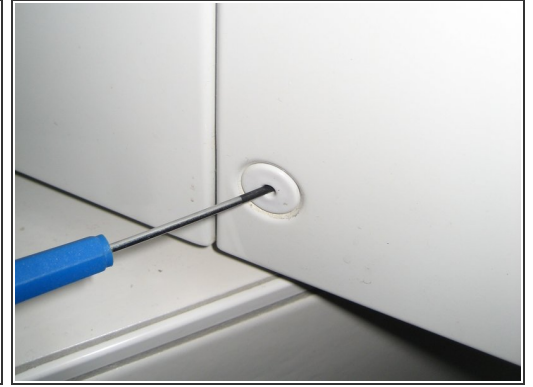

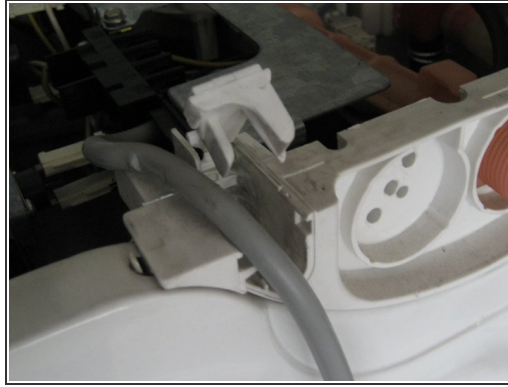

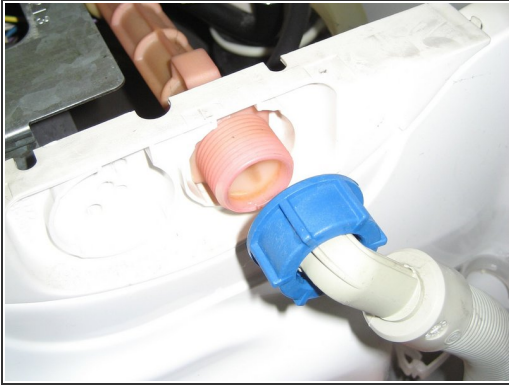

## Step 1 — Remove upper lid

- ✦ Unplug the power plug !!!
- Loosen the water and sewage hose
- Remove screws securing the top cover
- Lift the lid at the back and slide it out to the rear

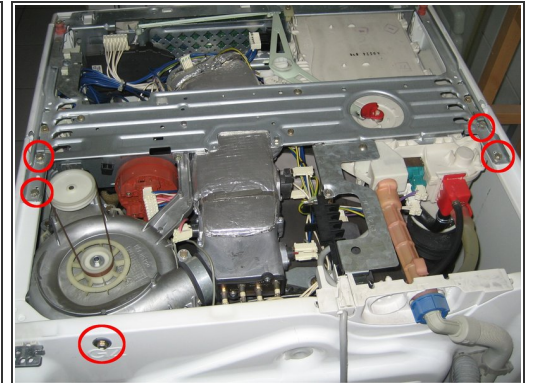

## Step 2 — Prepare removal of the rear housing part

- Remove water hose
- Disconnect the power plug
- Remove plastic caps at the bottom right + left

## Step 3 — Remove rear housing

- Remove screws according to pictures (and only these !!!)
- Remove rear housing part

**⚠ Caution:** The rear housing part is part of the load-bearing structure! The case is now slightly twisted.

## Step 4 — Shock absorber replacement

- The shock absorbers are situated to the right and to the left. The right one is extremely difficult to access.
- To remove the pins, the lock must be pressed down at the front end.
- The installation position is marked on the shock absorber.

Repeat the steps in reverse order to reassemble your device.
