

Protocol Vento Battery Replacement

This guide will demonstrate how to remove the Protocol Vento's battery.

Written By: Maria Larcomb

INTRODUCTION

Battery replacement should be the first step before attempting any repairs or replacements on the Protocol Vento drone. This guide will demonstrate how to remove the battery.

Step 1 — Battery

- Grasp the tail end of the drone where the lip of the battery protrudes.

Step 2

- Pull away from the drone to remove the battery.
- ☑ Do not attempt any repairs or replacements before removing the battery from the drone.

To reassemble your device, follow these instructions in reverse order.
