

Hasee Z7M-i78172D1 Rear Panel Replacement

This guide will walk you through how to access the main components in the Hasee Z7M-i78172D1.

Written By: Jake Decker

INTRODUCTION

The plastic panel on the back protects the components from damage. Because of this it is necessary to take off the panel to access all of the components in the computer.

TOOLS:

- [iFixit Opening Tools](#) (1)
- [Phillips #0 Screwdriver](#) (1)

PARTS:

- [7mm Phillip's Head Screw](#) (16)
- [Plastic Back Panel](#) (1)

Step 1 — Rear Panel

- Use a #0 Phillips head screwdriver and unscrew the sixteen 7mm screws on the back of the device.

Step 2

- Use a plastic opening tool to take off the back plastic panel.

To reassemble your device, follow these instructions in reverse order.
