

Sony Smart Watch SW2 Motherboard Cover Replacement

We will be showing you how to detach the motherboard cover and replace it.

Written By: Mohammed Alshamrani

INTRODUCTION

This guide will illustrate on how to remove and replace the motherboard cover.

TOOLS:

- [iFixit Opening Tools](#) (1)
-

Step 1 — Motherboard Cover

- Push down the smart watch housing with both thumbs while holding the outer frame.

i Note that the power button will fall off of the frame. Set it aside in a safe place with the wristband.

Step 2

- Detach the screen using the plastic prying tool.
- Detach the LCD screen from the motherboard by pulling the ribbon cable very carefully and slowly.

Step 3

- Using a the Spudger, remove the cover. Work your way around to find the most convenient place to open it.

To reassemble your device, follow these instructions in reverse order.
