

Samsung Galaxy Luna Screen Replacement

This guide is for replacing the screen of a Samsung Galaxy Luna.

Written By: Daniel Rocchi

INTRODUCTION

This guide is for replacing the screen of a Samsung Galaxy Luna.

TOOLS:

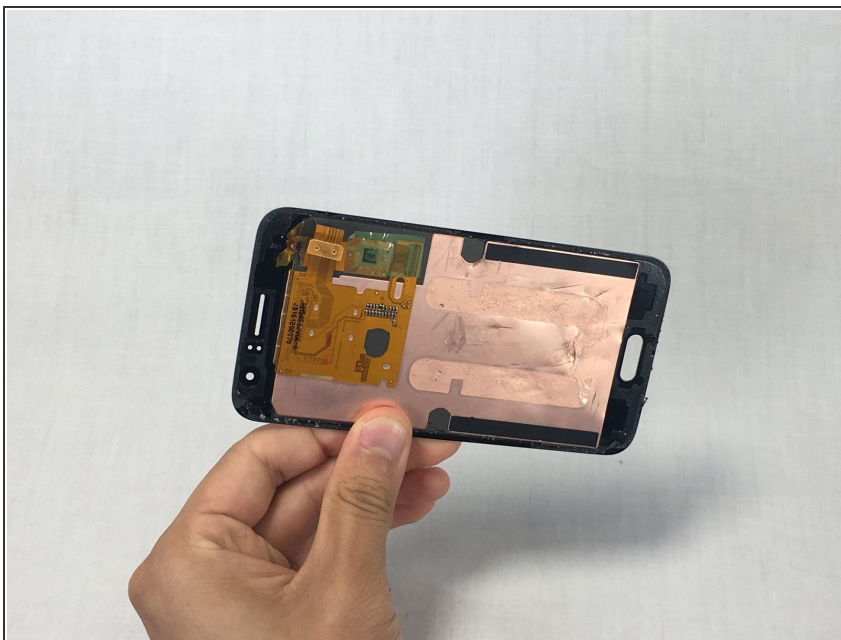

- [Metal Spudger Set](#) (1)
 - [Suction Handle](#) (1)
-

Step 1 — Screen

- Place small suction cup on the center of screen and press firmly.
- Hold the back of the phone and pull on the suction cup gently until the screen begins to bend.

Step 2

- Insert the small metal spudger into an opening on the phone and pry off the screen.
- ⚠ Be careful not to tear any exposed circuits as the screen is being removed.
- Make sure the screen is completely detached from the motherboard before removing it.

To reassemble your device, follow these instructions in reverse order.
