

# LG X Power Camera Replacement

This guide will show how to replace the camera on a LG X Power smartphone.

Written By: Chad Sears

## INTRODUCTION

This guide will show how to replace the camera on a LG X Power smartphone.

---

### TOOLS:

- [iFixit Opening Tools](#) (1)
  - [Spudger](#) (1)
  - [1 x PH0 screw bit](#) (1)
-

## Step 1 — LG X Power Disassembly

- Insert a plastic opening tool above the AUX jack and slide it around the perimeter to pop the back cover off.

## Step 2

- Remove the twelve 2.5mm Phillips #0 screws from the back of the phone.

### Step 3

- Insert a plastic opening tool underneath the mid-frame and pry upwards until you hear a click.
- With the plastic opening tool still underneath the mid-frame, work your way around the perimeter until it's free from the smartphone.

### Step 4 — Main Camera

- Use the flat end of a spudger to disconnect the front and rear cameras from the motherboard.
- Pull the cameras out to remove them.

To reassemble your device, follow these instructions in reverse order.
