INTRODUCTION

The Lenovo G570 has a 6-cell Lithium-ion battery that fits into the bottom side of the computer. Battery removal is an essential first step to any further repair or disassembly of the device.

Step 1 — Battery

- Turn off the laptop.

- Disconnect the charging cable.

⚠️ Failure to unplug the cable could result in electric shock.

- Turn the computer upside down.

Step 2

- Locate the two switches that lock the battery.

- Push the right switch outwards to unlock the battery.

Step 3

- Push and hold the left switch outwards to unlock the battery.

- Pull the battery away from the computer.

To reassemble your device, follow these instructions in reverse order.
