## INTRODUCTION

A laptop battery's performance naturally decreases over time. So for it to maintain high performance and charge duration a replacement is necessary.

## Step 1 — Battery

- ⚠** To prevent injury, make sure the laptop is unplugged and turned off before removing the battery.
- Push the two tabs in towards the laptop.
  - Lift the battery up and out from the frame of the laptop.

To reassemble your device, follow these instructions in reverse order.
