Dell Precision 5520 Battery Replacement

Written By: Johnathan Hammond
TOOLS:
- T5 Torx Screwdriver (1)
- Phillips #0 Screwdriver (1)
Step 1 — Base Cover

- Turn the system badge flap over (1) and then remove the ten M2x3 screws that secure the base cover to the computer (2).
- Pry the edges of the base cover and lift it to remove it from the computer.

NOTE: Use a Torx #5 screwdriver for the base screws and a Philips screwdriver for the two M2x8 screws inside the badge flap.
To reassemble your device, follow these instructions in reverse order.

- Disconnect the battery cable from the system board [1].
- Remove the seven M2x4 screws that secure the battery to the computer [2].
- Lift the battery off the computer [3].

⚠️ Do not apply pressure to the surface of the battery

⚠️ Do not bend

⚠️ Do not use tools of any kind to pry on or against the battery

ℹ️ If a battery cannot be removed within the constraints above, please contact Dell technical support
