

Dell Inspiron 15 3568 Hard Drive Replacement

Written By: Teren Wallace

INTRODUCTION

In this guide, we will show you how to remove and replace the Hard Drive.

TOOLS:

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Remove the Screws

⚠ WARNING: Before working inside your computer, read the safety information that shipped with your computer and follow the steps in [Before Working Inside Your Computer](#). After working inside your computer, follow the instructions in [After Working Inside Your Computer](#).

⚠ CAUTION: Hard drives are fragile. Exercise care when handling the hard drive.

- Remove the screws that secure the hard-drive assembly to the computer base.

Step 2 — Lifting the Latch

- Lift the latch and disconnect the hard-drive cable from the system board.

Step 3 — Lifting the Hard-Drive Assembly

- Lift the hard-drive assembly off the computer base.

Step 4 — Disconnecting the Interposer

- Disconnect the interposer from the hard drive.

Step 5 — Remove the Screws

- Remove the screws that secure the hard-drive bracket to the hard drive and lift the hard-drive bracket off the hard drive.

Step 6 — Placing the Hard-Drive Bracket

- Place the hard-drive bracket over the **NEW** hard drive and align the screw holes on the hard-drive bracket with the screw holes on the hard drive.

Step 7 — Replace the Screws

- Replace the screws that secure the hard-drive bracket to the hard drive.

Step 8 — Sliding the Hard-Drive Assembly

- Slide the hard-drive assembly in the computer base and align the screw holes on the hard-drive assembly with the screw holes on the computer base.

Step 9 — Slide the Hard-Drive Cable

- Slide the hard-drive cable into its connector and close the latch to secure the cable.

Step 10 — Replace the Screws

- Replace the screws that secure the hard-drive assembly to the computer base.
