

HP Stream TPN-Q155 Keyboard replacement

Written By: Jim Yang

**TOOLS:**

- [Soldering Iron](#) (1)

**PARTS:**

- [HP Stream TPN-Q155](#) (1)

Step 1 — HP Stream TPN-Q155 Keyboard replacement

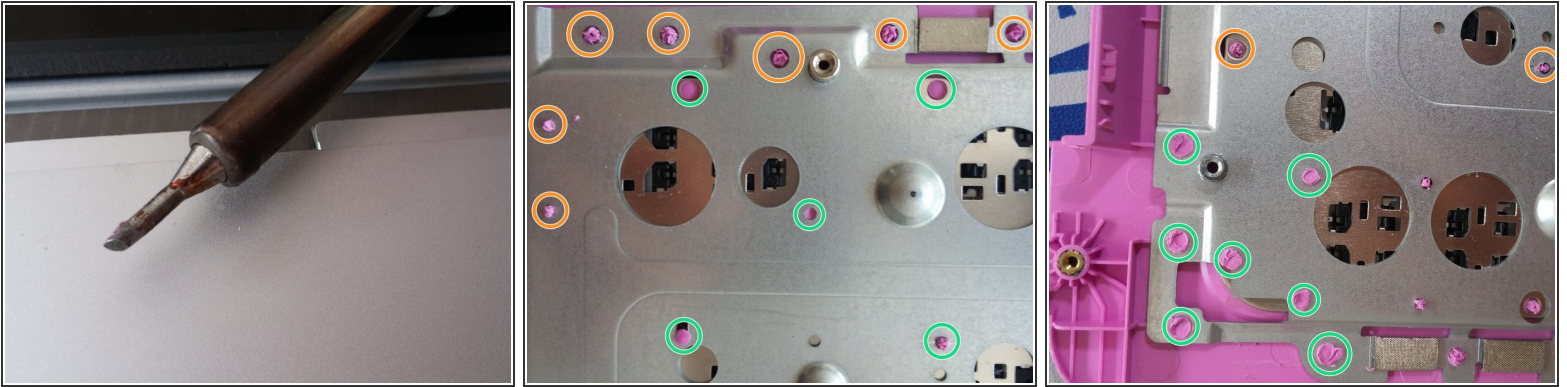

- Unscrew all the screws on the back of the laptop and remove the cover

Step 2

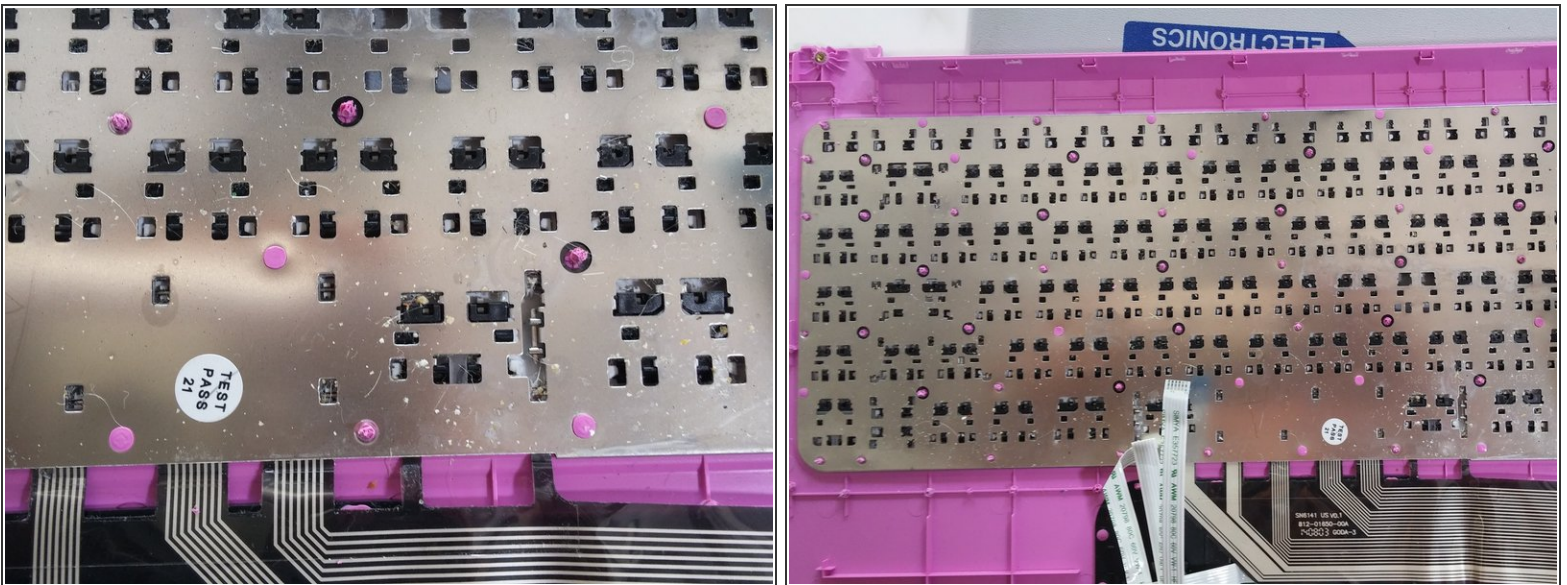

- Remove the black adhesive to expose plastic rivets.

Step 3

- Now, get a tissue and prepare for the sweat.
- And melt any rivet from green marker to orange marker like. Try not to cut it off, or you might be in trouble to hold the metal cover

Step 4

- Same process and keep melting the rest of the plastic rivets after the metal cover. This can easily going over 2 or 3 hours if you are not quick enough.
- And if everything goes alright, you might eventually get the problem keyboard removed and put a new keyboard back in.
- then, use your solder station the melt the plastic back to the keyboard.
