INTRODUCTION

The SIM card stores various information, including contact list and recent call data.

🔧 TOOLS:

- Spudger (1)

www.iFixit.com

Step 1 — Back Cover

- Place the phone on a flat surface with the front facing down.

- Insert your finger under the gray plastic cover at the bottom end of the phone.

- Lift the cover off the phone.

Step 2 — Battery

- Place your thumb in the notch in the lower left corner of the battery compartment.

- Lift the battery up and away from the phone.

- Remove the battery.

Step 3 — SIM Card

- Locate the metal slider that holds the SIM card in place.

- Push the slider away from the metal flap which contains the SIM card. The flap will pop up.

Step 4

- Lift the metal flap to gain access to the bottom of the SIM card.

- Remove the SIM card by sliding it out parallel to the bottom of the flap.

To reassemble your device, follow these instructions in reverse order.
