

HP 15-f162dx Hard Drive Replacement

This is a guide on how to easily replace the hard drive.

Written By: Abdullah Talha

INTRODUCTION

This is a guide of how to replace the Hard Drive easily.

Step 1 — Hard Drive

- Use phillips screwdriver flathead 2.5 mm to open the nails and then gently open the cover

Step 2

- Use the Metal spudger set to gently open the front cover

Step 3

- Use the Torx T-6 Phillips screwdriver to remove all the 6 screws, and then unplug the wire that connected to the motherboard. Then you are free to replace the hard drive.

To reassemble your device, follow these instructions in reverse order.
