## INTRODUCTION

If you have a new Micro SD card or your old one is broken on your Motorola Adventure V750, this guide will provide a step-by-step process on how to access and replace the Micro SD card.

## Step 1 — Micro SD

**i** Ensure that the device is off first.

- Locate the back cover and the cover's latch. Remove the cover from the back of the phone.

## Step 2

- Locate the sim card slot which is above the battery compartment.

### Step 3

- With your forefinger, gently slide the sim card out to the right until the card is cleared from the card slot.

### Step 4

- Insert the new sim card by sliding it underneath the sim card slot.

## Step 5

- Put the back cover back on the phone.

To reassemble your device, follow these instructions in reverse order.
