

# Dell Latitude D430 Battery Replacement

This guide serves to show you how to efficiently remove the battery from the laptop.

Written By: Ahlie Hussien

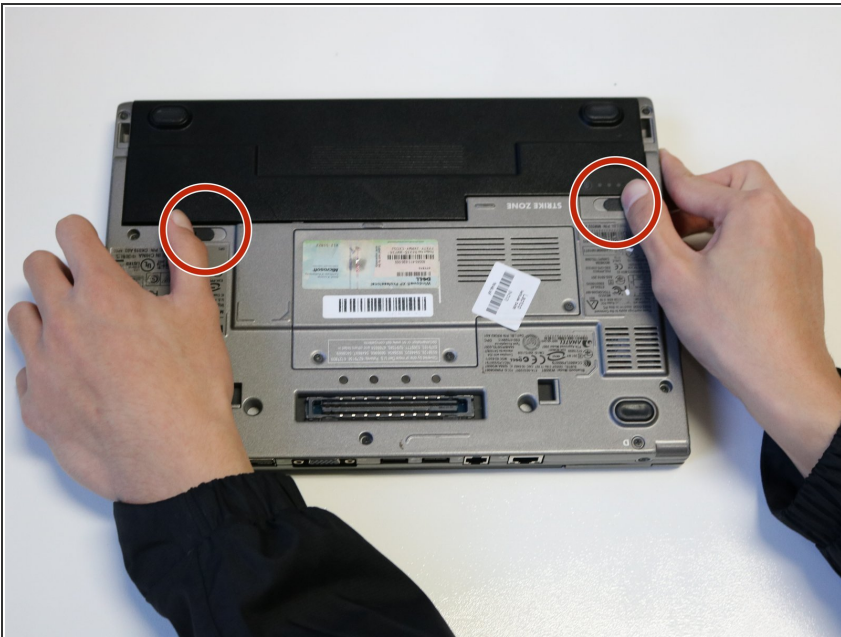

## Step 1 — Battery

- Turn the laptop over and make the bottom of the laptop face up.

## Step 2

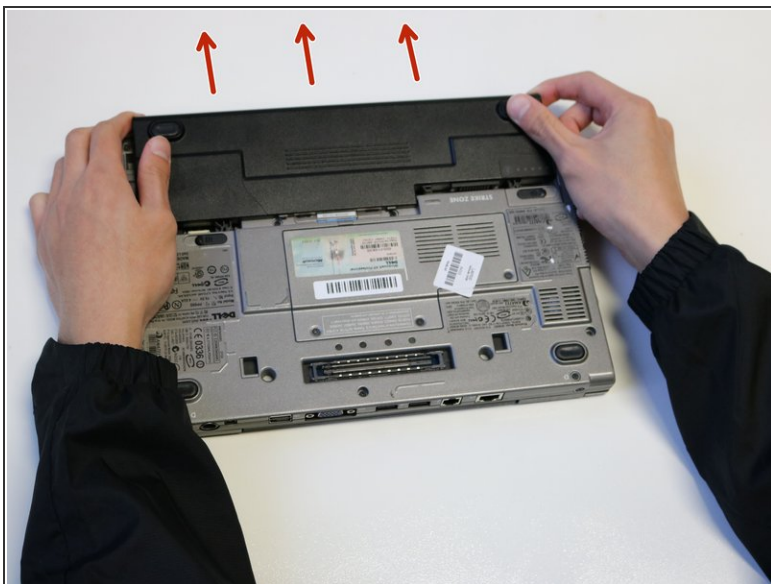

- Place your fingers on the black latches indicated in the picture.

### Step 3

- Slide them until you hear a click.

### Step 4

- Place both hands over the edge of the battery and pull up.

To reassemble your device, follow these instructions in reverse order.
