

Keurig K10 MINI PLUS Cold Water Reserve Lid Replacement

A fast and easy guide on how to replace the Cold Water Reserve Lid on the Keurig K10 Mini Plus.

Written By: Matt Bav

INTRODUCTION

This is a wonderful guide for the beginner with almost no experience in repair work or tasks. No unscrewing of parts are required, and can be done in a few short minutes.

TOOLS:

- [Metal Spudger](#) (1)
 - [iFixit Opening Tools](#) (1)
-

Step 1 — Cold Water Reserve Lid

- Lift the cold water reserve lid up to reveal its hinge.
- Using either the metal spudger or the opening tool, gently pry the plastic out of the metal axle.

Step 2

- Repeat the last step on the other hinge, making sure to keep a firm grasp on the lid as it comes off to avoid dropping it.

To reassemble your device, follow these instructions in reverse order.
