Use this guide to replace the screen on your HP Beats 15-p390nr.

Written By: Evan Rice

INTRODUCTION

Use this guide to replace the screen on your HP Beats 15-p390nr.

TOOLS:

- [Metal Spudger](#) (1)
 - [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Screen

- Use metal spudger to pry the screen from the back panel.
- ⓘ Popping sounds are normal
- ⚠ Make sure device is turned off

Step 2

- Use the Phillips #0 screwdriver to remove the four screws around the screen.

Step 3

- Unclip wire from the screen and lift screen to remove.

To reassemble your device, follow these instructions in reverse order.
