

OnePlus 5 Interconnect Cable Disconnect

Prerequisite guide only! Disconnects the interconnect flex cable from the daughterboard for a OnePlus 5.

Written By: Arthur Shi

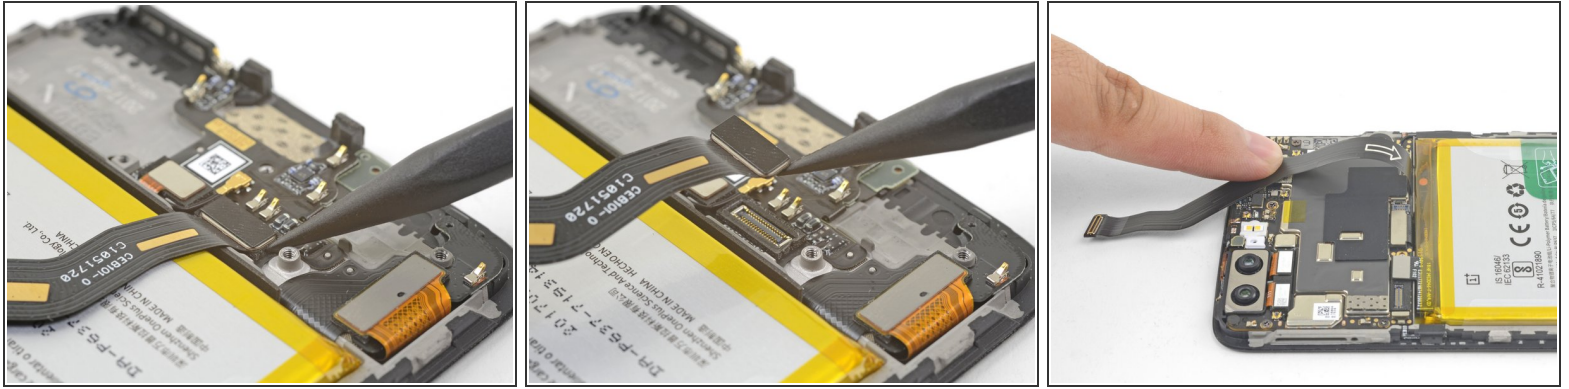

INTRODUCTION

Prerequisite guide only! Disconnects the interconnect flex cable from the daughterboard for a OnePlus 5.

TOOLS:

- [Spudger](#) (1)
-

Step 1 — OnePlus 5 Interconnect Cable Disconnect

- Use the point of a spudger to pry up and disconnect the interconnect flex cable from the socket.
- ⓘ If you are replacing the battery, bend the interconnect flex cable away from the phone and secure it out of the way with a rubber band or tape.

To reassemble your device, follow these instructions in reverse order.
