

# Verizon Ellipsis 8 Battery Replacement

This guide will allow you to replace a damaged or faulty battery on your Verizon Ellipsis 8 device.

Written By: Jack

---

## INTRODUCTION

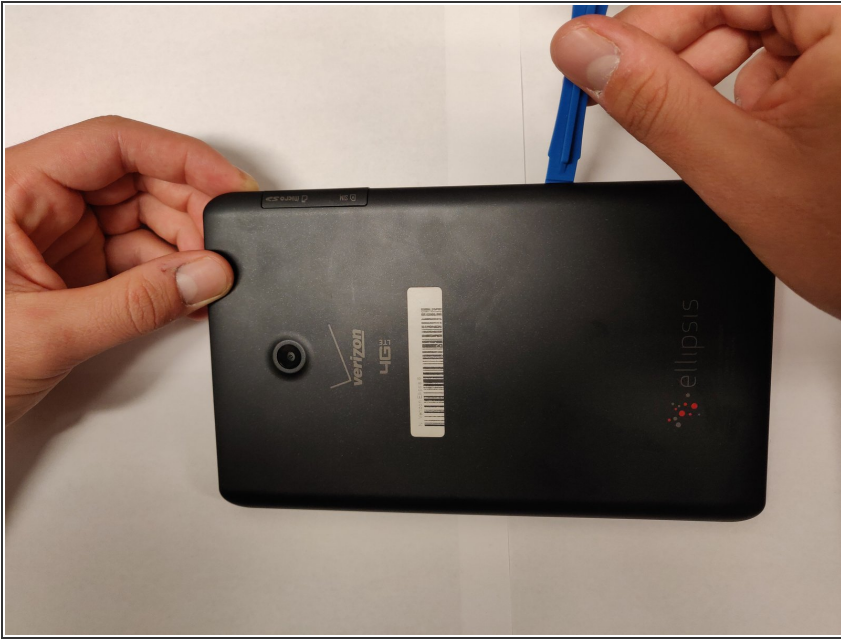

This repair guide is designed to allow the user to disassemble your Verizon Ellipsis 8 in order to replace a faulty battery. This task should take only about 5 minutes and will require the use of a plastic opening tool as well as a screwdriver. The task has been ranked as an easy repair and the following steps and photos outline how to successfully replace your faulty battery.

---

### TOOLS:

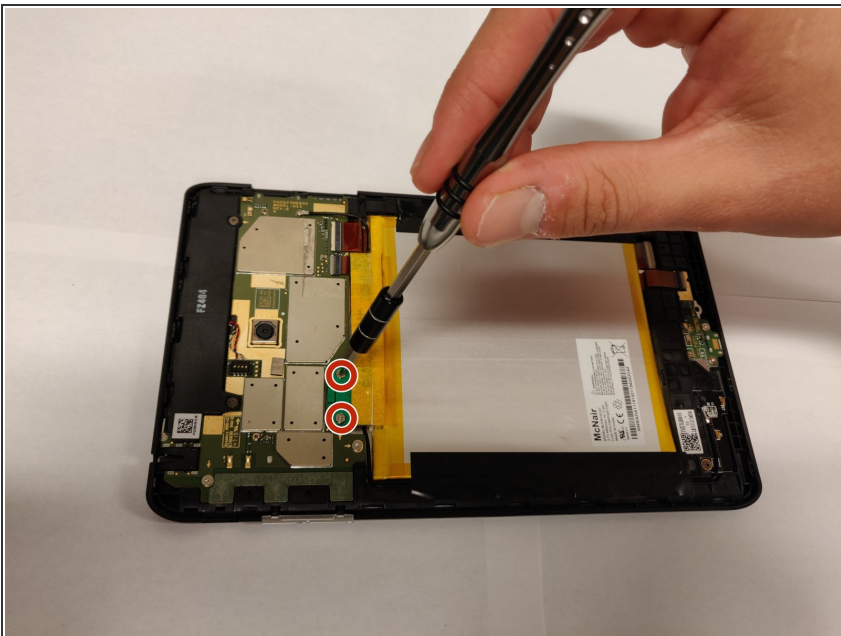

- [iFixit Opening Tools](#) (1)
  - [Phillips #00 Screwdriver](#) (1)
-

## Step 1 — Battery

- Using a plastic opening tool, slowly pry along the seam running along the edge of the device until the back case snaps free.
- Remove the back case.

## Step 2

- Using a Phillips #00 screwdriver, remove the two 0.1 mm screws on the green bracket.

### Step 3

- Once you remove the backing of the Verizon Ellipsis 8, gently use the spudger to lift one side of the tape. Once you have lifted the tape, slowly remove it until it is completely off the battery.

### Step 4

- Lift and remove the battery from the device.

To reassemble your device, follow these instructions in reverse order.
