INTRODUCTION

Replace a broken or worn out cover panel on your Acer Aspire 5742 to keep your RAM, hard drive and WLAN card safe.

⚙ TOOLS:

- Phillips #00 Screwdriver (1)
- Spudger (1)

This document was generated on 2020-11-27 09:08:03 PM (MST).
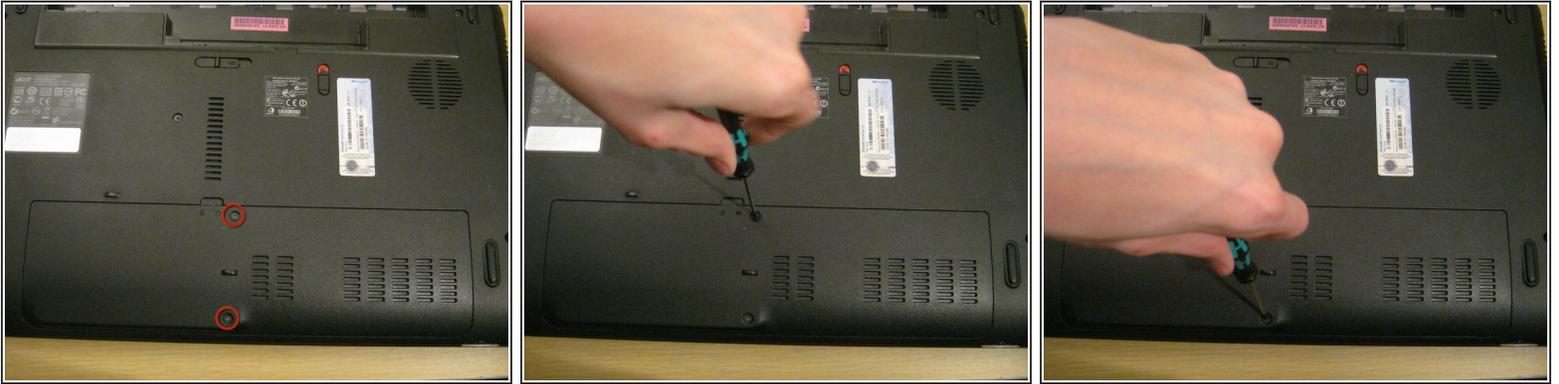

Step 1 — Cover Panel

- Turn the notebook around to face you.

- There are two Phillips #00 screws securing the cover panel to the rest of the notebook. Remove these screws.

Step 2

- Use a spudger to release the panel from the plastic retaining clips keeping it in place.

⚠ Do not apply too much force, or you may break the clips.

- Remove the panel and set it aside.

To reassemble your device, follow these instructions in reverse order.
