Step 1 — Battery

- Start at the microSD slot.

- Use the opening pick to slide underneath the back cover of the tablet.

- Slide the opening pick around the tablet until the back cover is off.
Step 2

- Remove the 8 screws with a Phillips #000 screwdriver [bit].
  - There is a screw under the blue "s" sticker.

- Remove tape holding plate down.

- Use precision tweezers or your fingers to remove plate.

Step 3

- Remove yellow tape.

- Use a spudger or plastic opening tool to remove the battery's ribbon cable from the motherboard.

Step 4

- Gently pull on the two stretch release adhesive strips. Do not pull up, pull away from battery.

- Once the tabs are off, lift the battery up from the frame.

- ⚠ Do not bend or puncture the battery.

Step 5 — Rear Camera

- Use a spudger to lift the rear camera press-fit connector up and free.

- Use tweezers to lift the rear camera out of the frame.

To reassemble your device, follow these instructions in reverse order.
