Motorola Droid 4 Rear Panel Replacement

How to remove and install the rear panel.

Written By: Gaetan

🔧 TOOLS:

- [Motorola Rear Cover Removal Tool](#) (1)

www.iFixit.com

Step 1 — Removing Rear Panel

To unlock the rear cover, insert the rear cover removal tool (packaged with your smartphone) in the hole near the back camera lens, then slide the cover down to remove.

If you have any problems unlocking or removing the rear cover, please take your smartphone to any Verizon Wireless store for assistance.

- Insert the rear cover removal tool, or a paper clip, in the hole near the back camera lens.

- Slide the cover down to remove.

To reassemble your device, follow these instructions in reverse order.
