

Dell Latitude D810 Hard Drive Replacement Replacement

This guide accomplishes how to replace the hard drive in your Dell D810

Written By: Prajwal Rajashekar

TOOLS:

- [Phillips PH000 Screwdriver \(1\)](#)
-

Step 1 — Bottom Case

- Unscrew the 2 screws holding the Hard Drive in

Step 2 — Hard Drive

- Slide the hard drive out of its place (this will require a little bit of force)

To reassemble your device, follow these instructions in reverse order.
