INTRODUCTION

If the prints produced by your HP Deskjet 2624 are faded, use this guide to replace the ink cartridges.
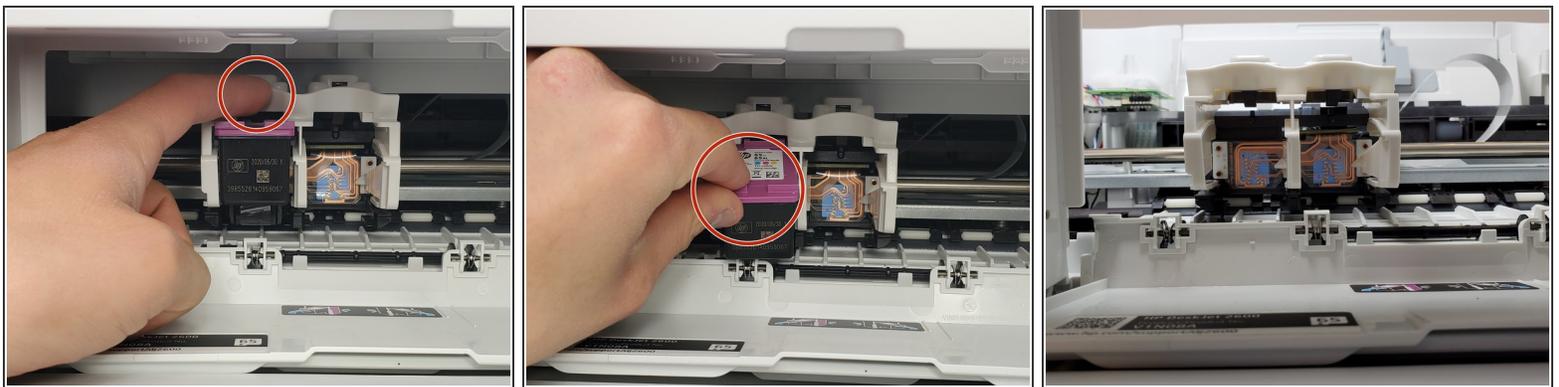

Ink cartridges store a printer's ink. Low levels of ink cause prints to be lighter than normal.
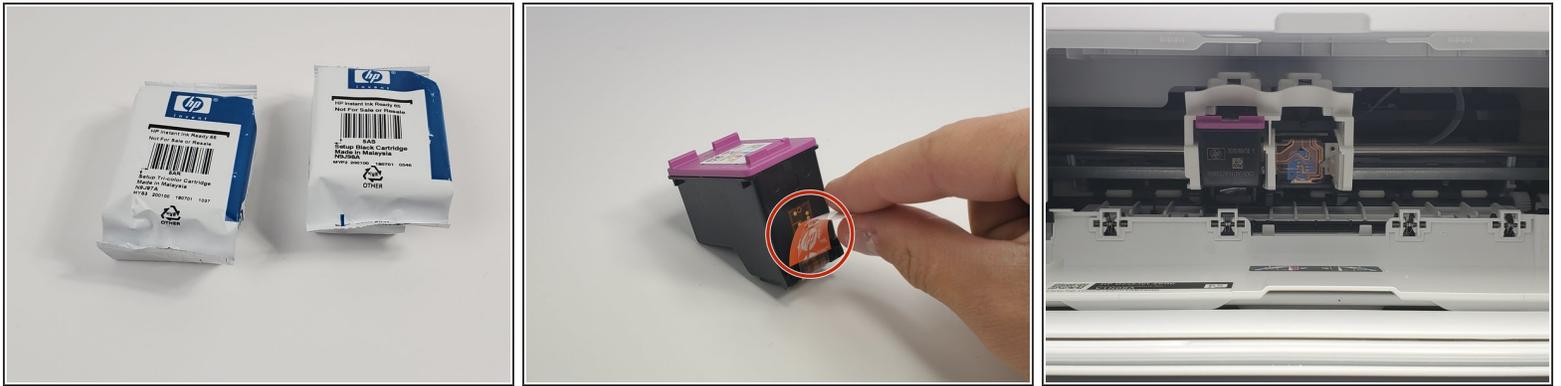

Step 1 — Ink Cartridges

- Unplug all of the cords from the printer and put paper into the input tray.

Step 2

- Lower the output tray and the ink cartridge access door.

- Lightly press forward on the cartridge to release it and then pull the cartridge straight out.

- (i) The slot on the left is the tri-color cartridge while the black cartridge is on the right.

This document was generated on 2020-11-28 07:58:04 AM (MST).

Step 3

- On the new cartridge, pull the colored tab to remove the plastic.

- Hold the replacement with the nozzles toward the printer and insert it at an upward angle.

- Push the cartridge forward until it snaps into place.
  - (i) Repeat steps two and three if necessary.

After completing this guide, don't forget to plug in your HP Deskjet 2624 .
