

Apple TV 1st Generation Hard Drive Replacement

Replace your hard drive in your Apple TV 1st Generation.

Written By: Celerityblur

INTRODUCTION

Replace your hard drive in your Apple TV 1st Generation.

TOOLS:

- [T8 Torx Screwdriver](#) (1)
-

Step 1 — Hard Drive

- Remove the four T8 Torx screws securing the hard drive to the lower case.

Step 2

- Peel and remove the hard drive up off the lower case.
- ⓘ The hard drive is held on to the lower case with mild adhesive.
- Disconnect the hard drive data cable from its socket on the hard drive.
- ★ If you are replacing your hard drive, ensure to transfer the hard drive data cable to your new hard drive.
- Hard drive remains.

To reassemble your device, follow these instructions in reverse order.
