

# Toshiba Satellite A85-S107 15" Keyboard Keys Replacement

This guide will demonstrate how to install individual keys on your keyboard.

Written By: Travis

## INTRODUCTION

Use this guide to replace or install keyboard keys on your Toshiba laptop.

### TOOLS:

- [iFixit Opening Tools](#) (1)

### PARTS:

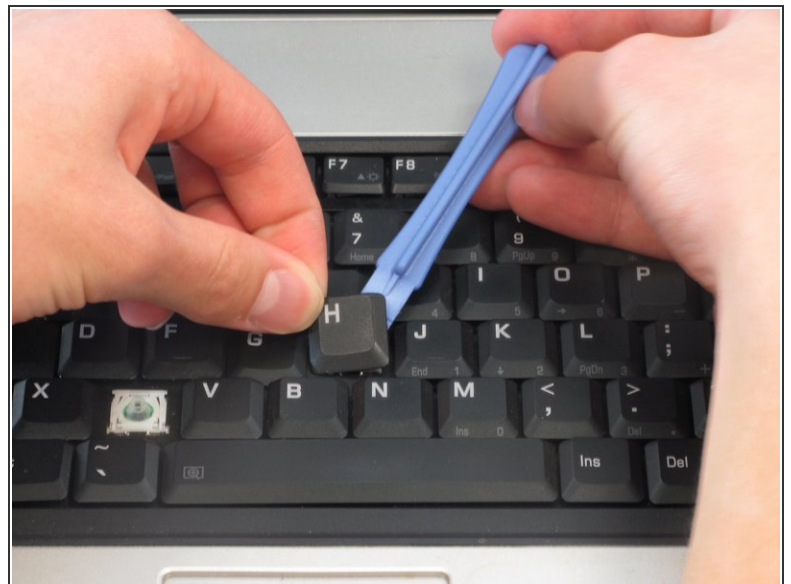

- [85 Keyboard Keys](#) (1)

## Step 1 — Keyboard Keys

- Open laptop by sliding the front tab to the right and lifting the screen.

## Step 2

- Use plastic opening tool to lift key up. It should just pop off easily.
- Repeat for all remaining keys.
- ⚠ The space key and right shift key have supportive metal bars along with the key.

To reassemble your device, follow these instructions in reverse order.
