DUB-L01 DUB-L21 DUB-LX1

Written By: ZFix
TOOLS:
- Phillips #0 Screwdriver (1)
- 1 x Opening Picks (1)
Step 1 — Y7 2019 Charging Board

- Huawei Y7 2019 Charging board / Sub Board Replacement

Step 2

- Switch off the device.
- Remove the SIM Tray.
- Use plastic opening tool to remove the back / battery cover.
- Gently disconnect the Fingerprint Flex Cable.
Step 3

- Unscrew the 7 Phillips screws.

⚠️ There are 3x white screws and 4x black screws.

- Use the plastic tool to unstick the daughter board plastic cover.

⚠️ If you find it difficult to remove the plastic cover - use hot air to melt the adhesive.

Step 4

- Gently disconnect the main flex and the coaxial antenna cable.

- Use Plastic tool to remove the charging board.

⚠️ If you find it difficult to remove the plastic cover - use hot air to melt the adhesive.
Step 5

- Test the charge before assembling the device.
- Thank you :)

To reassemble your device, follow these instructions in reverse order.
