

iHome iD95 Backup Battery Replacement

This guide will help you take out the backup battery in your iHome iD95.

Written By: Vincent Chan

INTRODUCTION

Use this guide to replace a dead backup battery or remove it to prevent unwanted alarm beeping.

TOOLS:

- [Phillips #1 Screwdriver](#) (1)
 - [iFixit Opening Tools](#) (1)
-

Step 1 — Backup Battery

- Before taking apart the iD95, disconnect the AC cord from the wall socket and AC adapter from the DC jack. Remove any iPods, iPhones, and iPads attached to the device.
- Flip over the iD95 so the bottom cover is visible and the LCD screen is facing you.

Step 2

- Remove the 10 mm-length, 5 mm-head screw using a Phillips #1 screwdriver.

Step 3

- Use a plastic opening tool to take out the backup battery.

To reassemble your device, follow these instructions in reverse order.
