Y7 Prime 2019 display replacement

Written By: ZFix
INTRODUCTION

How to change broken screen on Huawei Y7 2019.

https://youtu.be/98ofuHwR9a0
Step 1 — Display replacement without frame

- The new spare part.

Step 2

- Remove the SIM Tray.
- Use plastic tool to remove the back cover.
Step 3

- Remove the silver Philips screws.
- Remove the motherboard plastic cover
- Disconnect the battery and the fingerprint flex cable.

Step 4

- Disconnect the screen flex cable and connect the new screen for test.
- If the spare part is okay continue with the instalation.
Step 5 — Charging board cover removal

- Remove the silver Philips screws and the charging dock cover.
- Lift the board slightly to release the screen flex cable.

Step 6

- Warm up the glass to soften the adhesive.
- Use plastic tools to remove the glass, then clean the frame from the adhesive.
Step 7

- Use double sided adhesive 1mm.
- Use a little glue (B-7000, E-8000, T-8000 or similar) on the corners of the frame.

Step 8

- Install the new screen.
- Use clamps until the glue dries.

To reassemble your device, follow these instructions in reverse order.
