

Apple Pencil (2nd Generation) Tips Replacement

This guide will help you replace your Apple...

Written By: tayola

INTRODUCTION

This guide will help you replace your Apple Pencil tip.

⚙️ PARTS:

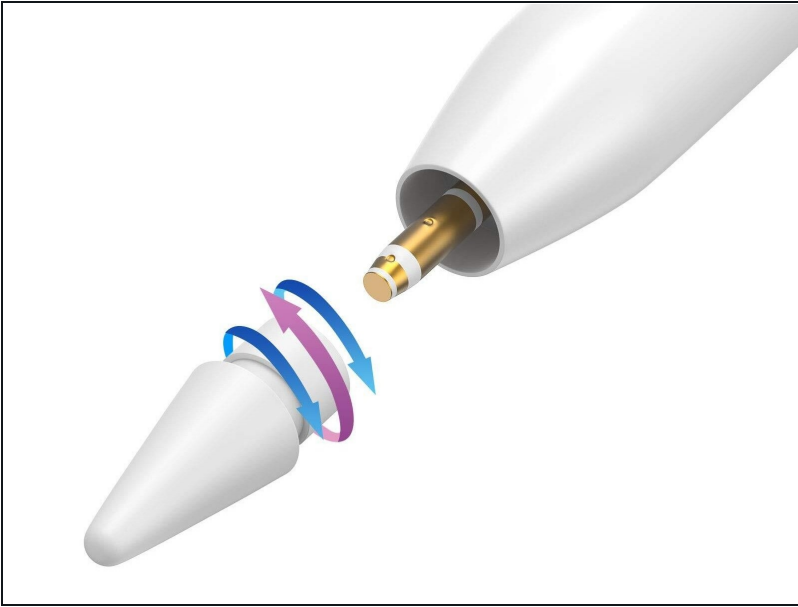

[Apple Pencil Tips](#) (1)

Step 1 — Preparation

- Grab your Apple Pencil Second Generation.
- ① Make sure you have replacement tips. You can buy them from Apple or from 3rd party vendors on Amazon.

Step 2 — Unscrewing and Installing the tip

- To take off your Apple Pencil's current tip, squeeze it between two fingers and turn it counterclockwise to unscrew it. It should come off within seconds.
- Once it's off, place your new Pencil tip on the metal prong and screw it clockwise until it's tight. Once it stops turning easily, you can let go.

To reassemble your device, follow these instructions in reverse order.
