Step 1 — Rear Case

- Pry with a plastic opening tool, or your fingernail, in the divot to the right of the rear-facing camera, near the volume rocker.

Step 2

- Lift and remove the rear case from the phone.

Step 3 — Battery

- Insert your finger in the notch of the battery compartment.

- Press the battery toward the rear facing camera while pulling outward.

Step 4 — MicroSD Card

- Use the flat end of a spudger, or your fingernail, to press the microSD card slightly deeper into its slot until you hear a click.

- After the click, release the card and it will pop out of its slot.

- ⊡ For reassembly, push the microSD card into the slot until it clicks in place.
