

Microsoft Surface Pro Kickstand Replacement

This guide will help you remove the kickstand and install a new one back onto the Microsoft Surface Pro

Written By: Mark

INTRODUCTION

This replacement guide will help you with the following:

Completely remove the old kick-stand and install a new one.

TOOLS:

- [T5 Torx Screwdriver](#) (1)

PARTS:

- [Surface Pro Kickstand](#) (1)
-

Step 1 — Kickstand

- Turn the tablet so the back is facing you
- Pull up on the kick-stand to open up the stand
- Remove the kick-stand by unscrewing the two T5 Torx screws located on the left and right sides.

Step 2

- Gently pull up on the stand until the tabs slide out, releasing the stand

To reassemble your device, follow these instructions in reverse order.
