

LG VX4400 Antenna Replacement

Written By: Nico Chiarito

INTRODUCTION

This guide will show you how to replace the antenna.

Step 1 — Battery

- Push the light gray rectangle in the top-center up.
- While pushing up grab the sides of the battery and pull out.

Step 2 — Antenna

- Unscrew the antenna by grasping the base and twisting counterclockwise.
- ⚠ The antenna may separate from a black sleeve during removal. You may need to use tweezers to remove the sleeve. Remove both the antenna and the sleeve and set aside.
