

# Motorola V60c Logic Board Replacement

Written By: Ryan Kuroiwa

## INTRODUCTION

How to replace the logic board.

### TOOLS:

- [iFixit Opening Tools](#) (1)
- [T6 Torx Screwdriver](#) (1)

### PARTS:

- [Motorola V60c Logic Board](#) (1)

## Step 1 — Battery

- Depress the silver button.
- Pull from top of phone to lift the cover.

## Step 2

- Hold battery from both sides at the bottom.
- Push upwards and gently lift to remove.

### Step 3 — Logic Board

- Remove 4 screws from corners using T-6 screwdriver.
- ⓘ NOTE: Bottom two screws are gold.
- NOTE: Make sure screws return to correct place when reassembling.

### Step 4

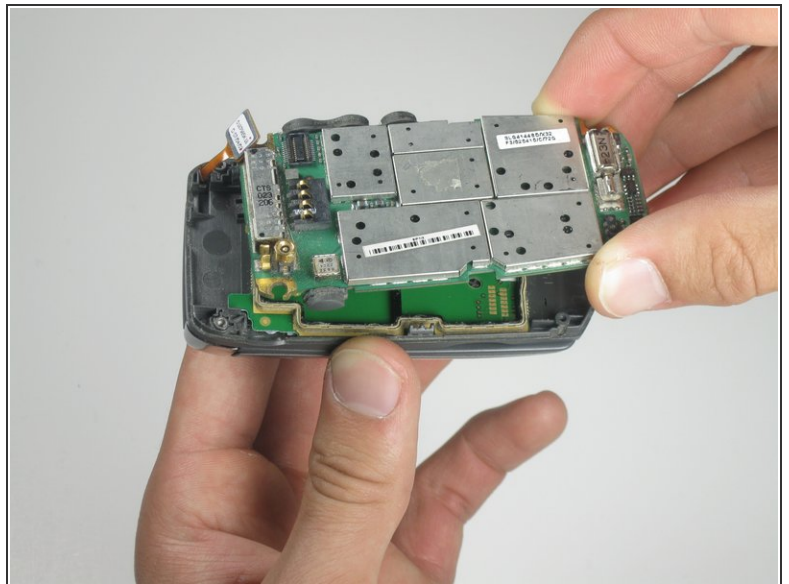

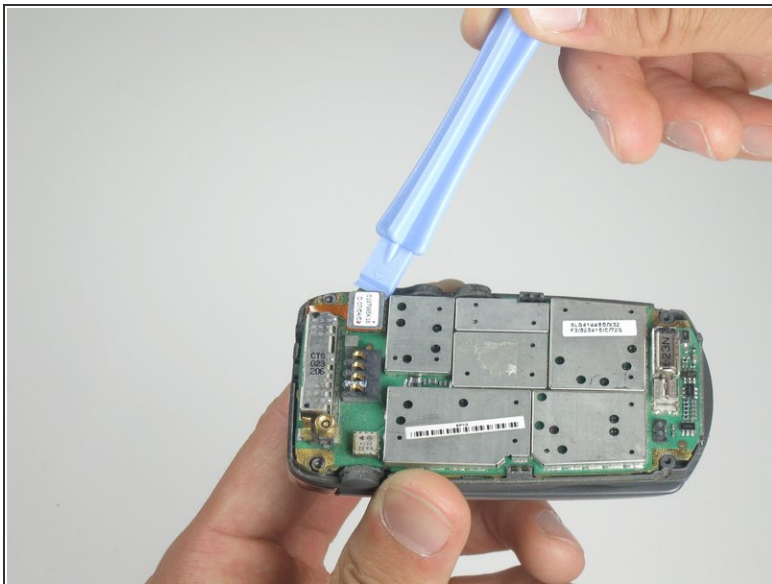

- Use a plastic opening tool to pry up back cover from the two side clips.
- ⓘ NOTE: sticker might be attached to rest of phone.

## Step 5

- Remove the back cover.

## Step 6

- Use a plastic opening tool to gently remove the orange ribbon cable.
- Lift up the main logic board to remove.

To reassemble your device, follow these instructions in reverse order.
