Step 1 — Batteries

- Use your finger tip to slide battery cover door away from the center of the camera.

- The battery door should spring open.
  - If this does not happen, gently open the door lifting from the outer bottom side of the camera.
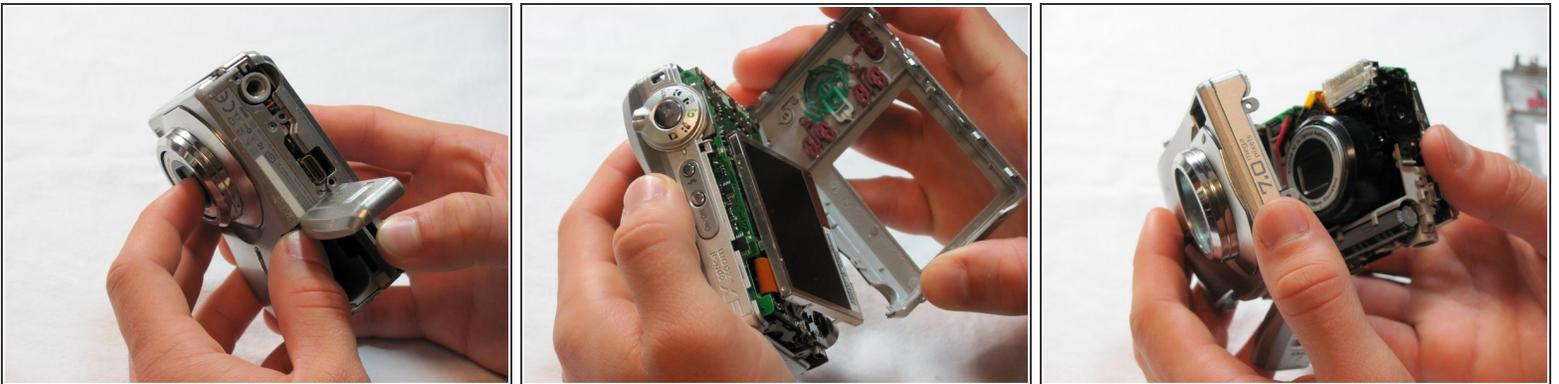

Step 2

- Remove the old batteries.

Step 3 — Outer Case

- Remove the seven screws from the outer case with a Phillips #00.
  - All screws are 4.45mm.
  - There are 2 screws on the port side.
  - There are 2 screws on starboard side.
  - There are 3 screws on the bottom.

Step 4

- ⚠️ Make sure the battery cap is "up".

- Pull the outer case off with your hands.

Step 5 — Buttons

- Remove the necessary broken buttons.
  - They come out easily so just use your fingers.

To reassemble your device, follow these instructions in reverse order.
