

Sony Ericsson Z500a Keypad Replacement

How to replace a Sony Ericsson Z500a keypad.

Written By: Jory Benitez

INTRODUCTION

This guide shows how to remove the phone keypad.

TOOLS:

- [T6 Torx Screwdriver](#) (1)
 - [iFixit Opening Tools](#) (1)
-

Step 1 — Keypad

- Remove the back cover and the battery.

Step 2

- Remove the 4 screws using a T6 precision screwdriver.
- Flip open the phone, and keep the back cover facing you.

Step 3

- Take the plastic opening tool and run it between the phone case and phone body to loosen the key pad while the phone is open.
- ⓘ There are 2 clamps that lock it to the phone case (1 on each side).

Step 4

- Flip the phone over and lift straight up on the key pad to remove it.
- ⚠ Be sure to hold the phone flat (parallel to the table), because there are loose parts that may fall out.

To reassemble your device, follow these instructions in reverse order.
