

Removing Nokia 3100b Keypad

Written By: Sterling Fuentes

INTRODUCTION

The keypad inside the Nokia 3100b may eventually need replacement. This guide shows you how to access the keypad.

Step 1 — battery

- Make sure your phone is turned off.

Step 2

- Press the button on the back of the phone and slide the back panel off.
- Remove the battery by pulling it from the phone.

Step 3 — Removing Nokia 3100b Keypad

- Note the two black tabs on the side of the phone, indicated in the picture.
- Push the tabs down and pull the colored half of the phone from the white half.

Step 4

- The front part of the phone is now removed. Make sure nothing was damaged while removing the front cover.

Step 5

- Remove the keypad membrane by pulling it from the front cover.

To reassemble your device, follow these instructions in reverse order.
