INTRODUCTION

It is extremely easy to remove the battery from your Acer laptop.

TOOLS:

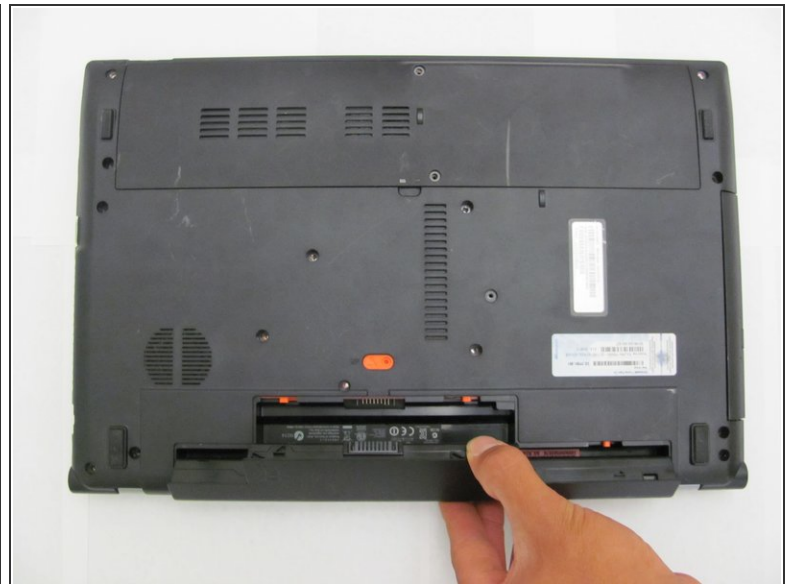

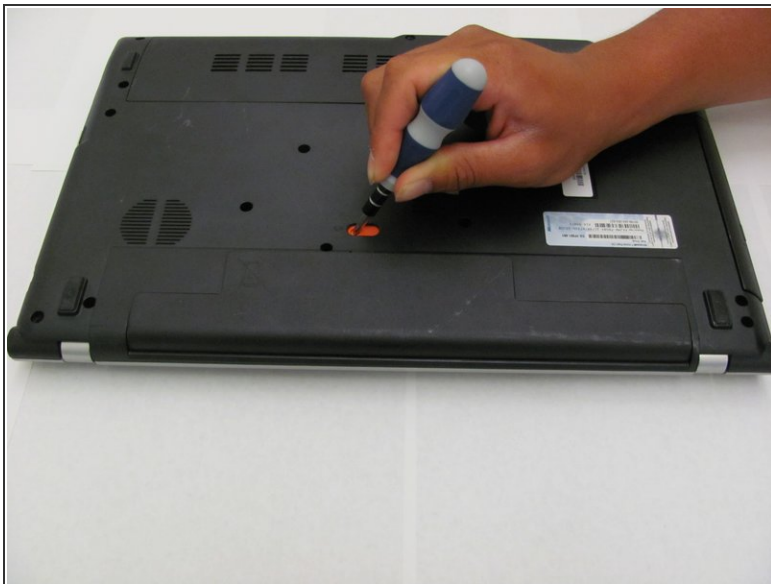

- [Phillips #0 Screwdriver](#) (1)
-

Step 1 — Battery

- Turn off laptop.
- Disconnect charging cable.
- ⚠ Failure to unplug the cable could result in electric shock.

Step 2

- Locate orange tab above the battery.
- Use a phillips screwdriver or pen to release the battery and remove it.

To reassemble your device, follow these instructions in reverse order.
