INTRODUCTION

Use this guide to remove and replace the battery door.

🔧 **TOOLS:**

- Phillips #00 Screwdriver (1)
- Tweezers (1)

Step 1 — Batteries

- Use your finger tip to slide battery cover door away from the center of the camera.

- The battery door should spring open.
  - If this does not happen, gently open the door lifting from the outer bottom side of the camera.
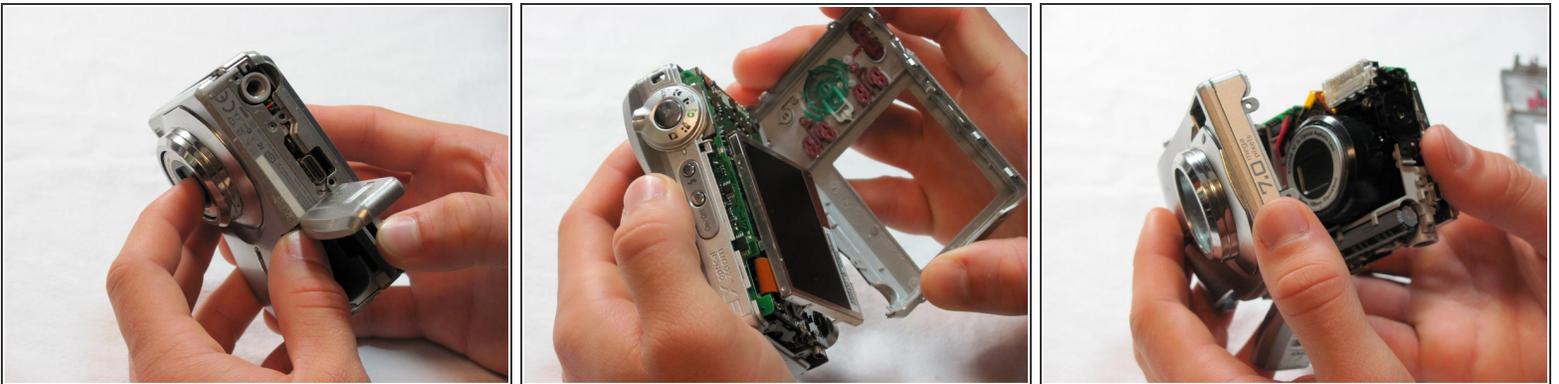

Step 2

- Remove the old batteries.

Step 3 — Outer Case

- Remove the seven screws from the outer case with a Phillips #00.
  - All screws are 4.45mm.
  - There are 2 screws on the port side.
  - There are 2 screws on starboard side.
  - There are 3 screws on the bottom.

Step 4

- ⚠ Make sure the battery cap is "up".
- Pull the outer case off with your hands.

Step 5 — Battery Door

- Make sure the battery door is open.

- Using a pair of tweezers, remove the metal rod at the junction of the battery door and the inner camera case.

  - (i) This rod serves as the hinge for the door.

  - ⚠ Make sure not to lose the battery door spring which may fall when the rod is removed.

To reassemble your device, follow these instructions in reverse order.
