INTRODUCTION

How to do a Factory / Hard reset.
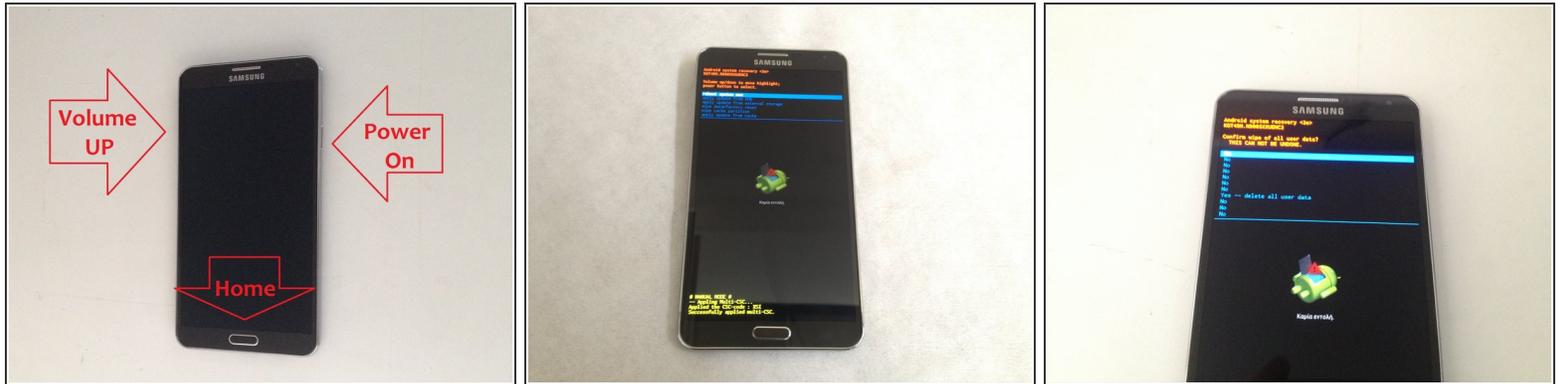

If your device keeps freezing,

If you've forgotten the Password, security PIN, pattern drill,

or it just doesn't work, take it back to factory settings.

!!! This procedure will erase all your personal data !!!

Step 1 — Samsung Galaxy Note 3 - Wipe Data / Factory Reset

- Turn off the device completely

- Press and hold the **Volume Up, Home** and **Power** keys at the same time.

- When the logo **"GALAXY Note 3"** appears on the screen, release the **Power** key but continue to press and hold the **Volume Up** key and the **Home** key.

- When the Android System Recovery menu appears, release the **Volume Up** and **Home** keys.

- Use the **Volume Up**/**Down** keys for navigation in the menu and the **Power** key to select **'"wipe data / factory reset".**

- In the next menu select **"Yes -- erase all user data"** and **"reboot system now"**.

To reassemble your device, follow these instructions in reverse order.
