INTRODUCTION

If your battery no longer holds a charge or stops functioning all together, use this guide to remove and replace the battery. No tools required.

Step 1 — Battery

- Locate the battery by turning the laptop over.

Step 2

- Locate the lock switch and slide toward the outside edge of the laptop until it clicks into place and the battery unit pops up.

- Remove the battery unit from the laptop and set it aside.

To reassemble your device, follow these instructions in reverse order.
