

Motorola V180 Keypad Replacement

Written By: Tyler Knisley

INTRODUCTION

How to replace the keypad.

TOOLS:

- [Spudger](#) (1)
 - [T6 Torx Screwdriver](#) (1)
-

Step 1 — Battery

- Flip over the phone, press down the button and slide off the back cover.
- Remove the battery.

Step 2 — Keypad

- Locate the four screws on the back of the phone.
- Using your T6 Torx Screwdriver, unscrew these screws.
- Remove the SIM card located on the back of the phone.

 A ribbon near the antenna is still attached to the motherboard. Do not break this ribbon.

To reassemble your device, follow these instructions in reverse order.
