- [Galaxy Tab 3 8.0 Rear Case](#) (1)

Step 1 — Battery - Open up the tablet

- Start out by separating the screen from the back cover using the larger plastic opening tool to pry them apart.

⚠ Be careful when removing the screen as negligence can cause damage.

Step 2 — Remove Back Cover

- Once every part of the screen is separated from the back cover, you should be able to fully remove it with your hands.

Step 3 — Disconnect Battery

- To remove the battery you must use something small, such as tweezers, to disconnect the battery from its port.

i Note: the connection lifts up to remove.

Step 4 — Remove Battery

- After the battery is disconnected, use the pulling tab to safely remove the battery.

To reassemble your device, follow these instructions in reverse order.
