Sony CDX-GT540UI Face-Plate Eject Lever Replacement

This will show how to remove and replace the face-plate eject lever. This will allow one to take advantage of the security feature of a removable face-plate.

Written By: Odelkys Marquez

INTRODUCTION

This guide will show how to remove and replace the face-plate eject lever on the device.

Before any repair work can be done one must remove the device for the vehicle. To do so follow this link to see a general vehicle removal of a stereo system.

🔧 TOOLS:

- Phillips #00 Screwdriver (1)
- iFixit Opening Tools (1)

Step 1 — Front Panel

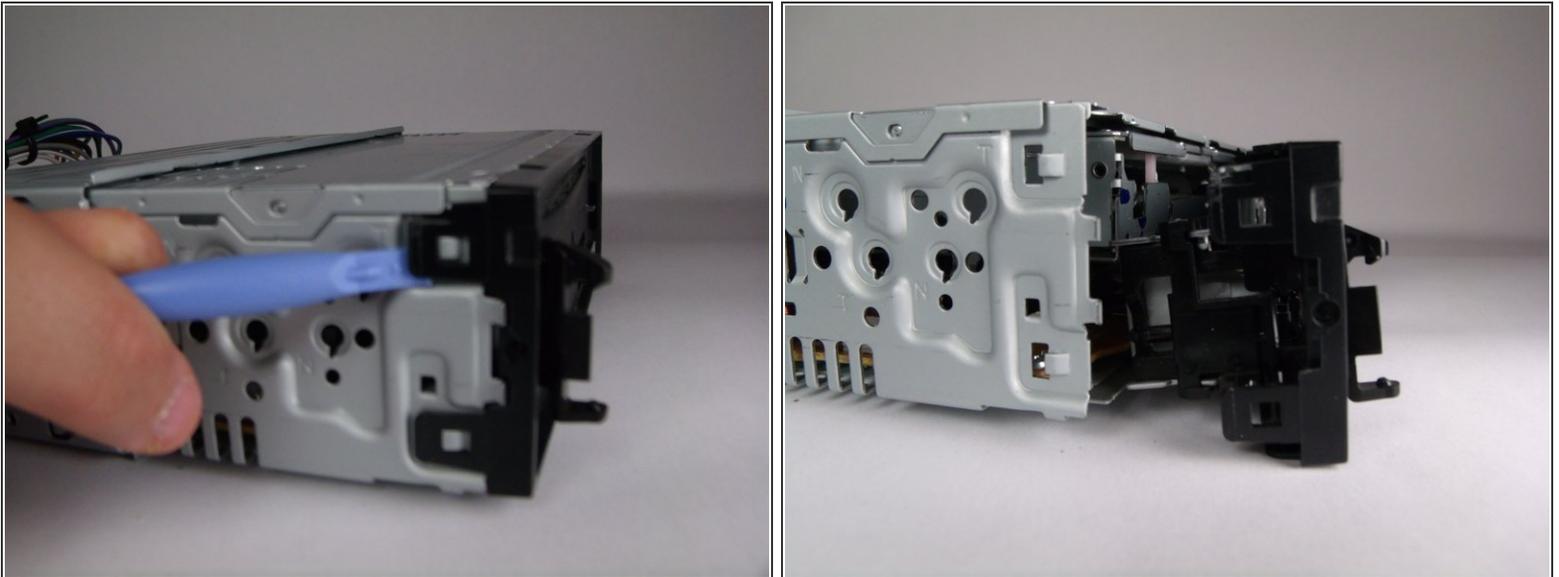

- Locate face-plate eject button.

Step 2

- Press the eject button.

- Remove the face-plate.

Step 3

- Remove two 4.9mm Phillips #00screws on the front of the device.

- Remove two 7.5mm Phillips #00screws on the front of the device.

- (i) When the screws are removed, the eject lever may fall into the device. Make sure the device is held horizontal and level.
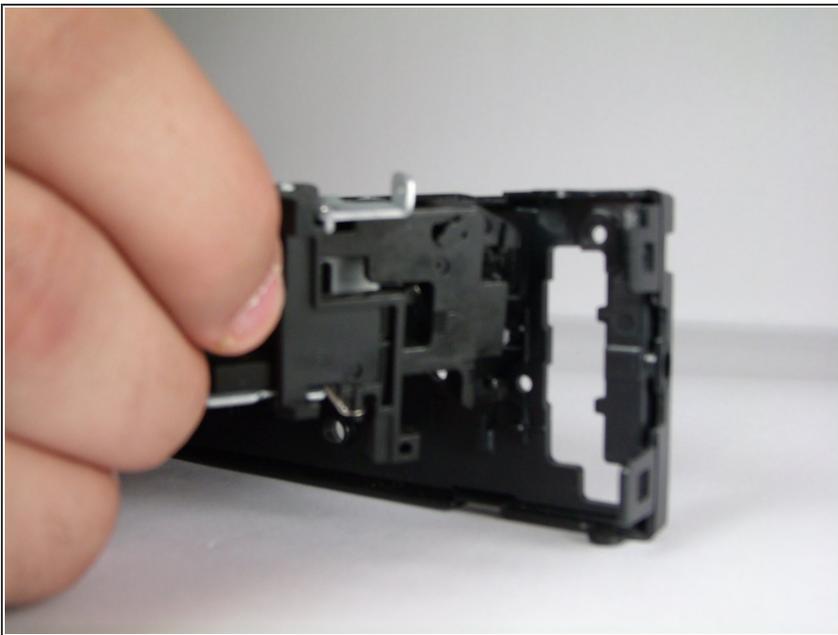

Step 4

- Rotate device 90 degrees to either side.

- Use the plastic opening tool to pry open the top and bottom tab respectively.

- Repeat on opposite side.
