

# iPod Shuffle 3rd Generation Rear Case Replacement

Rear case removal.

Written By: Matthew Newsom

---

## INTRODUCTION

Replace the rear case on your iPod shuffle for a shiny new clip.

---

### TOOLS:

- [Metal Spudger](#) (1)
  - [iFixit Opening Tools](#) (1)
-

## Step 1 — Rear Case

- Widen the small gap between the front and rear case by inserting a metal spudger into the gap near the top of the iPod.

 Be careful when using a metal spudger, as you may scratch the outer case.

## Step 2

- Insert an iPod opening tool into the newly widened gap, and pry the rear case up and away from the front case.

### Step 3

- Insert the iPod Shuffle opening tool into the gap between the front and rear case on the same side, at the bottom corner of the iPod.
- Pry the rear case away from the front case.

### Step 4

- Lift the bottom of the rear case and remove it from the rest of the iPod.

To reassemble your device, follow these instructions in reverse order.
