Step 1 — Battery

- Heat the back cover to soften the adhesive sticker.

- Use the suction cup to open a gap from top side or bottom side.
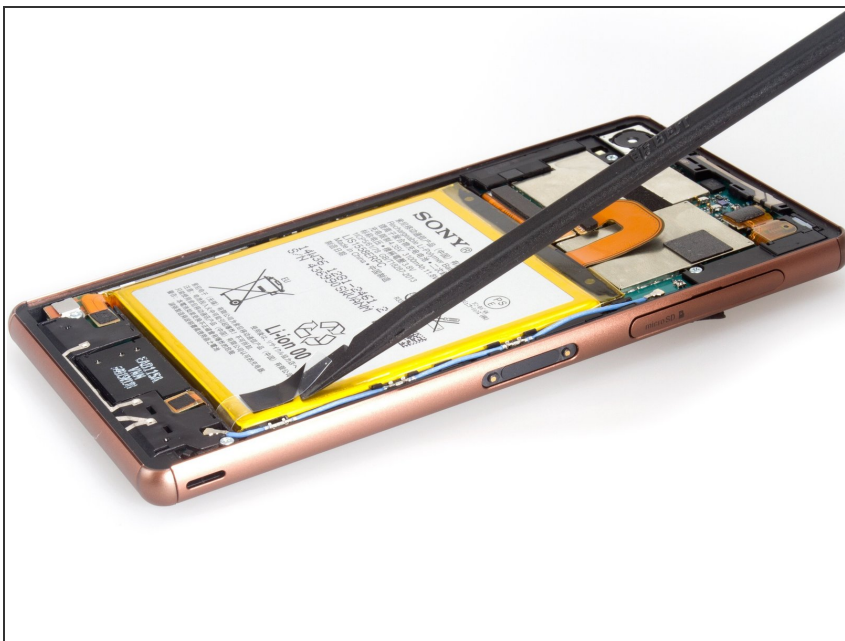

Step 2

- Insert into the guitar pick and slide to cut the sticker.

- Remove the back cover.

Step 3

● Release battery flex connector carefully to avoid breaking the pins.

Step 4

● Get free that sticker which for fastening the battery.

Step 5

- Pry up with a little effort because there is adhesive under the battery though not so strong.

Step 6

- That's Sony Xperia Z3 Dual 3100mAh battery.

- When you finished to replace battery and ready to assemble the phone, you need a piece of new back cover adhesive sticker because it's disposable and the old one can't use any more.

To reassemble your device, follow these instructions in reverse order.
