

Samsung CLP-300 Waste Toner Container Replacement

This is a guide for replacing a worn-out waste toner container with a new waste toner container.

Written By: Heather Howard

INTRODUCTION

Follow these easy steps to replace your old waste toner container. When waste toner container needs to be replaced a smart panel program window should appear on your computer.

Step 1 — Waste Toner Container

- Turn the printer off and wait a few minutes for it to cool.

Step 2

- Open the front cover.

Step 3

- Pull the waste toner container out of the printer using the handle.
- ⓘ Make sure to keep waste toner container upright to avoid spillage.

Step 4

- Use the provided green cap to close the waste container opening on the top back of the container.
- Push new container firmly into place.
- Firmly close front cover.
- Turn printer on.
- ⓘ It may take up to 3 minutes for printer to resume function.
- ⚠ If you hear a crackling sound once the printer turns on the imaging unit is not installed correctly. Take out and reinsert the unit.

To reassemble your device, follow these instructions in reverse order.
