Step 1 — Back Cover

- Unscrew the four Phillips screws on the back of the PSP Go.

- Rotate the PSP so you can see the top of the device.

- Unscrew the two Phillips screws next to the volume buttons.

Step 2

- Use a plastic opening tool around the perimeter of the back cover to loosen it on all sides.

- Open the back cover by gently lifting the right side, and rotating it to the left side (as if you were opening a book).

⚠ Be careful not to rotate the back cover from the bottom, as you will break the plastic screw holes on top of the device.

Step 3 — Top Cover

- Pull the top cover upwards gently from its housing.

To reassemble your device, follow these instructions in reverse order.
