- Spudger (1)

This document was generated on 2020-11-26 07:52:54 AM (MST).

Step 1 — Opening Device

- Insert spudger into the USB Micro slot and pry the case apart.

- ⚠️ Be careful not to go too deep and bend the prong inside the Micro USB port.

Step 2 — Pry Device Apart

- Slide the wide plastic opening tool across the seem, separating it if you can't pry the device open using just the spudger.

- ⚠️ Gently separate the case so none of the cords inside are disconnected
